

PW PASSIVE ALUCLAD WINDOW

PW - Excellent performance for all types of projects. Triple pane glass enclosed in a 109mm wood frame, protected with aluminum cladding.

The PW is designed to meet the most stringent performance requirement in the world – Passive House

PW PASSIVE ALUCLAD WINDOW

Prefinished wood frames add warmth as well as structural strength. Aluminum cladding shields against weather and creates stunning exterior lines. Scandinavian Spilka and Assa Abloy hardware ensures smooth operation and impeccable style. The PW defines elegance in windows.
